

Cannabis consultation

9-07-2020

The Argument

- Criminalization approach vs public health approach
- Negative impact of cannabis – current vs proposed
- Positive impact – current vs proposed

Cannabis

Distribution of CB1 Receptors

Indicators	Saint Lucia	St. Vincent	Jamaica	Trinidad	Average
Prevalence:					
Life-Time	28.8	26.4	21.1	16.6	20.6
Past Year	17.2	19.4	11.9	10.7	13.7
Past Month	10.7	14	6.3	6.2	8.8
Past Year Use by Age:					
Male	22.7	24.8	14.5	13.8	17.5
Female	11.8	15.3	10.1	8.0	10.3
Past Year Use by Age					
14 or less	10.6	12.3	5.4	6.0	7.5
15-16	19.9	20.8	16.5	13.2	16.1
17+	25.5	30.4	12.2	12.5	19.8

Use of Marijuana in Relation to Perceived Risk and Daily Use of Tobacco Cigarettes or Marijuana among U.S. Students in Grade 12, 1975–2013.

Volkow ND et al. N Engl J Med 2014;370:2219-2227

Medicinal uses

Conclusive or substantial evidence

- Chronic pain
- Anti-emetic for chemotherapy induced nausea and vomiting
- Muscle spasm in MS
- Anti-inflammatory

Moderate evidence

- Improving sleep disorders
- Improved airway dynamics with acute use but not chronic
- Certain Seizures (Charlottes Web - low THC high CBD)

Cannabis disorders

DSM-5

- Cannabis use disorder
- Cannabis intoxication
- Cannabis withdrawal
- Other Cannabis induced disorders
 - Psychosis
 - Anxiety disorder
 - Sleep disorder

Others

- Amotivational syndrome
- Hyperemesis

Substance abuse

- The gateway theory has been debunked and replaced by the common liability theory
- Address Adverse Childhood Experiences
- Education
- Providing supportive counseling services
- Only a legalized regime can.

Adverse effects especially with daily use of high THC

Conclusive or substantial evidence

- Psychosis
- Low birth weight
- Motor vehicle accidents
- Chronic bronchitis

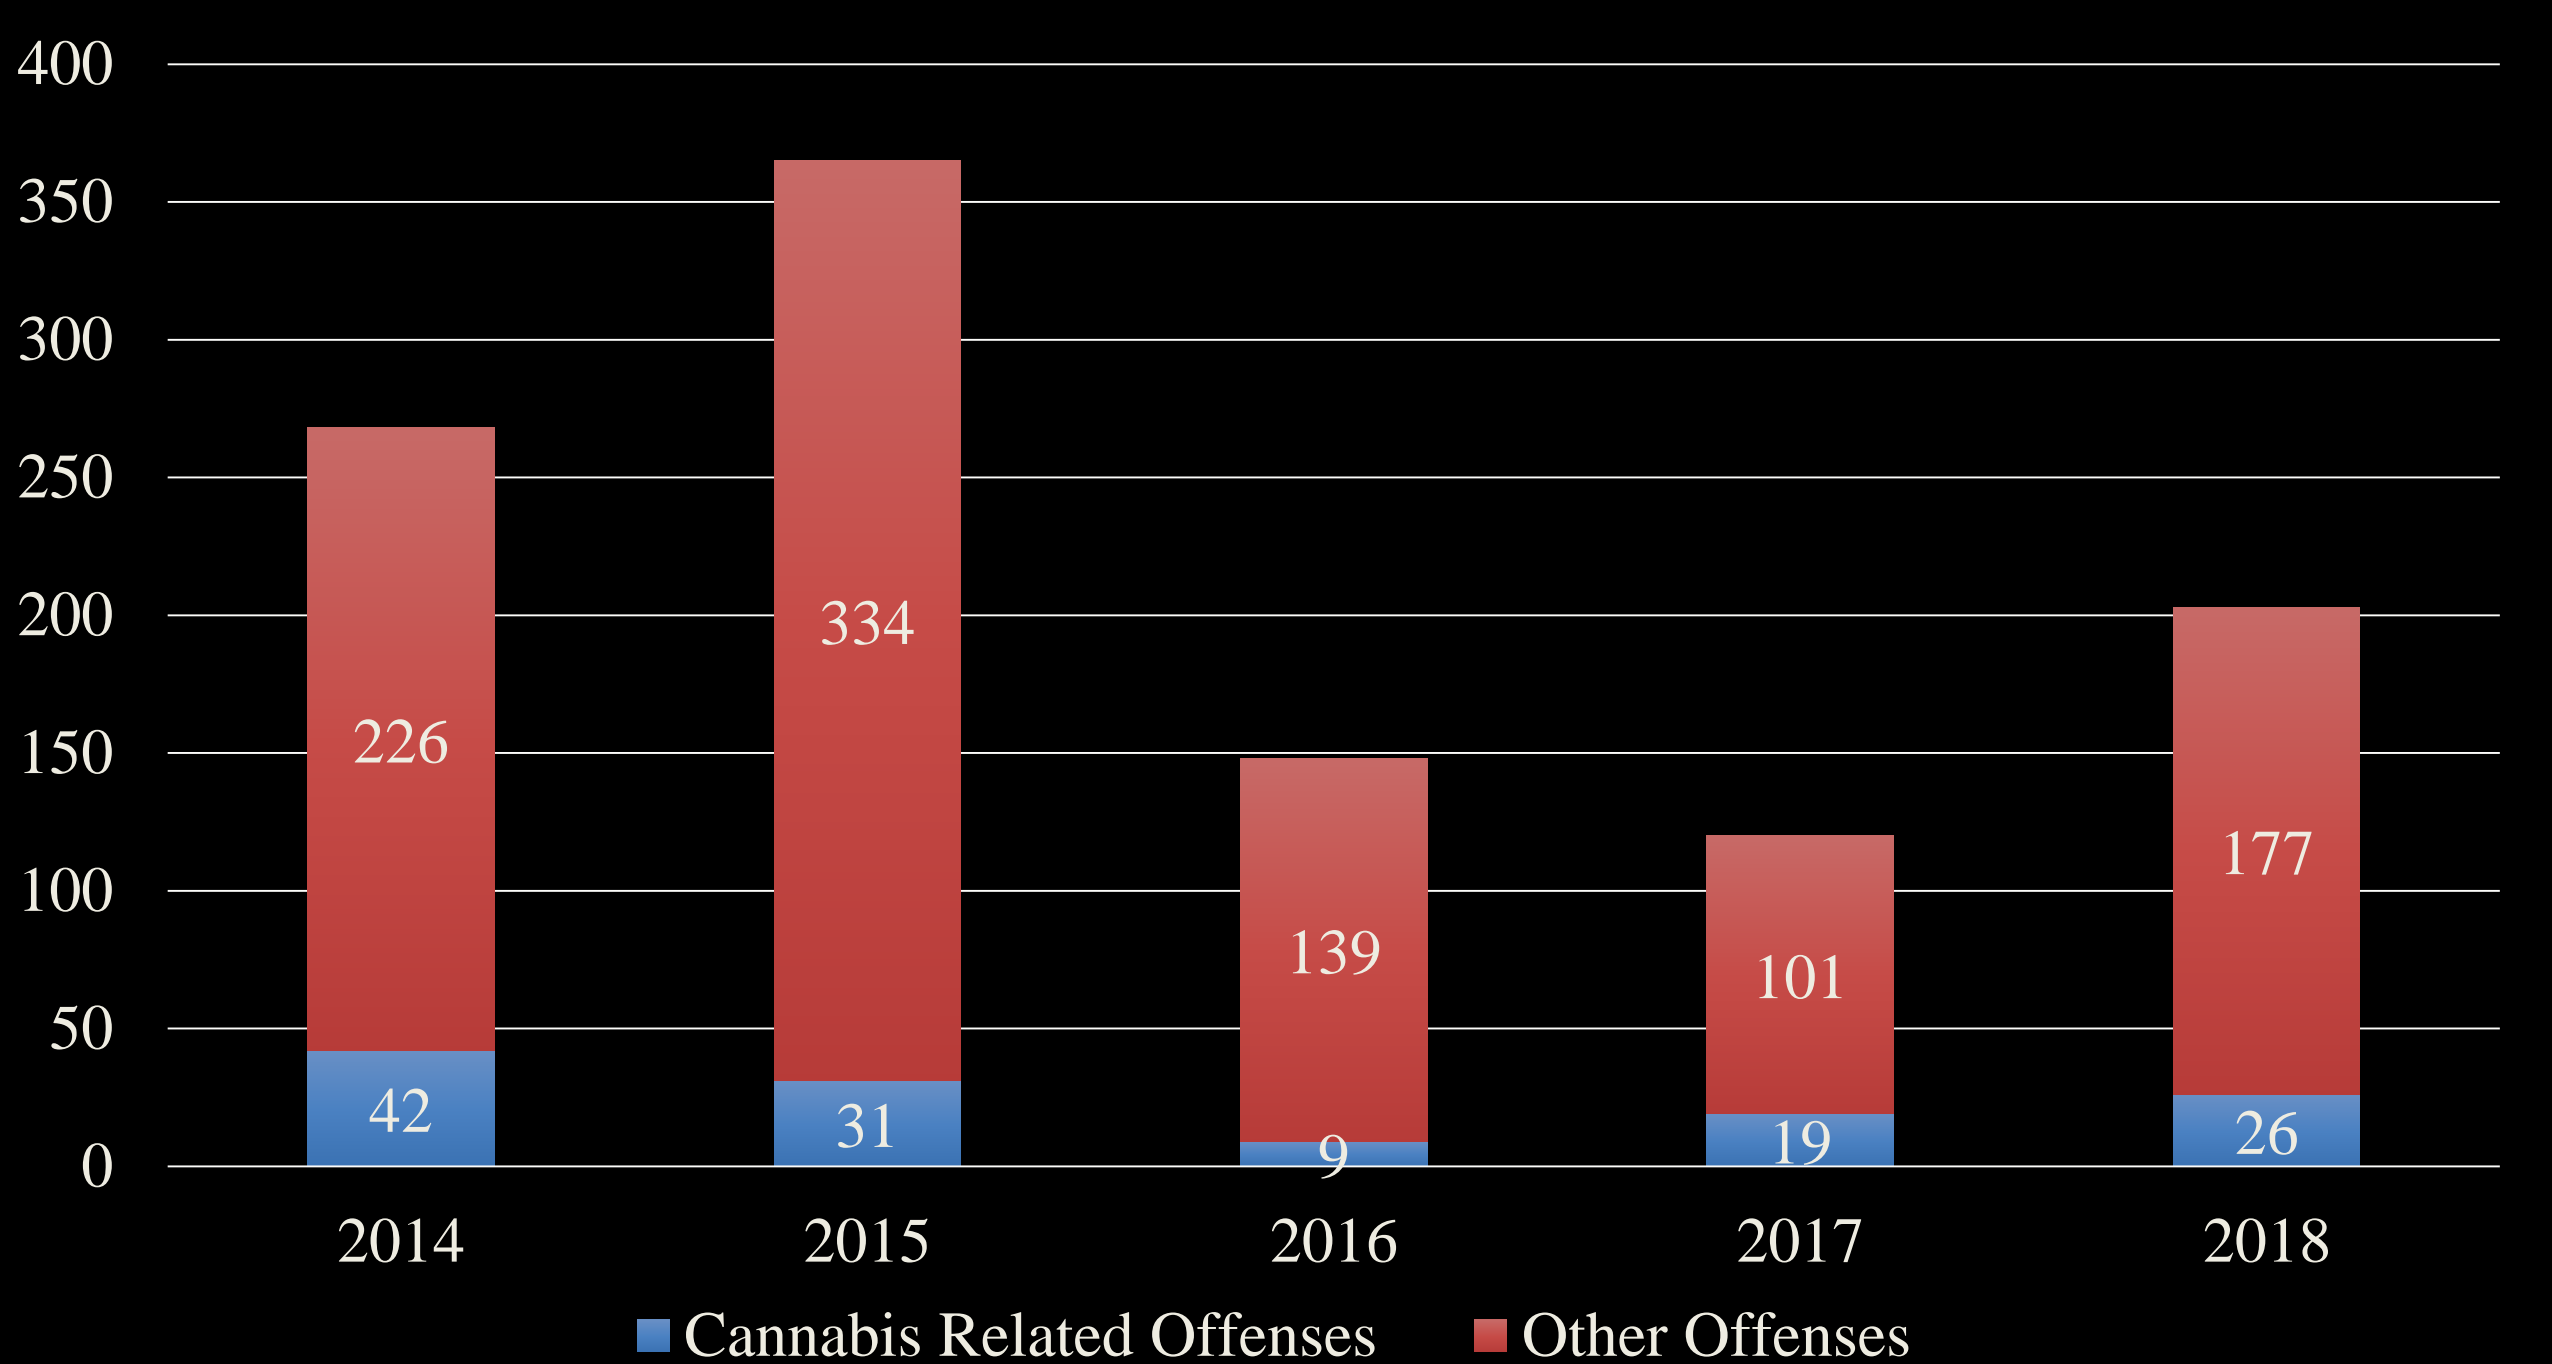

Moderate evidence

- Impairment of learning, memory and attention
- Increased suicide ideation, social anxiety and depression
- Worsening of psychotic symptoms
- Cannabis Use Disorder (9%)

Month	Admissions	Male	Female	Total Cannabis	Cannabis use + other disorder	Cannabis use only	Male cannabis associated	Female cannabis associated
June	74	44	30	27	23	4	24	3
